

# Kitimat Questions: Energy

**August 29 – October 18, 2014**  
**Kitimat Museum & Archives**

There are words that are frequently used when discussing energy. Given that energy is a most critical world need, and given that Kitimat has become the focus as a gateway to the Asia Pacific customer, the Kitimat Museum & Archives presents some thoughts and activities on the topic of energy.

## Residents Submitted Questions

Well-used words in energy discussion have been chosen to group the questions. Social media and a focus group were vehicles for gathering resident's questions. These questions will be sent to key stakeholders and energy proponents in the private and public sectors, and will be published alongside responses in Kitimat Questions: Energy – our second exhibition opening in fall 2015.

Curator: Louise Avery  
Co-Curator: Robin Rowland
